Friday  
23 September 2022  
10:00 – 16:00

**CLICK HERE**  
to register for  
this course

**A 1-day  
training course  
for professionals  
from disciplines  
such as Psychology,  
Nursing, Occupational Therapy,  
Psychiatry and Neurology.**

**Booking information:**  
Per Delegate: **£150**

This training is for professionals working with children and young people with tics. The course will include a wealth of material frequently used to provide psychoeducation to young people and their families.

The course contains a review of the literature, background information on Tourette syndrome. Including symptom trajectory and management, practical materials to help attendees discuss the condition with young people and their families.
