PIPA Trial

Mental health during childhood and adolescence is very important. Difficulties like anxiety and depression can start when people are young and it is important for young people and their families to understand these difficulties and get support when needed.

The PIPA Trial is exploring the effectiveness of an online resource for parents/carers to help reduce depression and anxiety in young people. The trial is being coordinated by the University of Warwick and involves families of young people aged 11-15 years from schools in the UK.

The trial is free and conducted completely online. Eligible parents/carers and young people will be asked to complete some questionnaires. Parents/carers will then receive access to some online parenting resources: either the standard educational package of fact sheets or the personalised programme with up to nine modules. Parents/carers and young people will also be asked to complete some follow-up questionnaires.

Please see the letter below which gives further about how to sign up.

If you have any questions, please speak to Mrs K Oliver or contact the PIPA trial team at [PIPA@warwick.ac.uk](mailto:PIPA@warwick.ac.uk) or 02476 574316 / 02476 575078.
